

Simon Brian G. Pamintuan

+63 975 375-0845 | simonbriangarcia@gmail.com | UI/UX Designer and Front-End Developer

DESIGN TOOLS

Figma, Adobe Photoshop, Adobe Illustrator, Canva, Fig Jam, HTML, CSS, JavaScript, TypeScript, Tailwind CSS, React

EXPERIENCE

UI/UX and System Designer | Department of Science and Technology – Central Luzon *Jan 2026 – May 2026*

- Worked as part of the agency's software team, supporting UI design, graphic design, software development, system documentation, testing, and other software-related requirements.
- Designed and developed responsive interfaces for internal information systems that supported operational workflows and centralized data management.
- Created dashboard layouts and visual components using Figma for a flood forecasting system, making environmental and weather data easier to monitor and understand.

UI/UX Designer | Kibbler for DICT Step-Up Central Luzon *May 2025 – Nov 2025*

- Designed the user interface layouts for an IoT-based smart pet feeder with a mobile application and web management dashboard.
- Created user flows, wireframes, screen layouts, and responsive interfaces for pet profiles, feeding schedules, device monitoring, and feeding analytics.

Web Designer and Developer | Freelance Role *Mar 2025 – May 2025*

- Designed and developed a responsive restaurant ordering and reservation platform for customers, employees, and administrators.
- Planned user flows for menu browsing, table reservations, online ordering, payment, and real-time order tracking.

PROJECTS

Kibbler – Smart Pet Feeder | *Lyka's Dog and Cat Shelter* *May 2025 – Nov 2025*

- Designed UI/UX prototypes for the web and mobile of an IoT-powered pet feeding platform used by pet owners and animal shelter caregivers.

ToothTrackr – Dental Scheduling and Records System | *Songco Dental Clinic* *Oct 2024 – Apr 2025*

- Designed the Figma prototype for a multi-role dental clinic system used by patients, dentists, clinic staff, and administrators.

Project KAAGAPAY - Flood Forecasting and Advisory System | *DOST – Central Luzon* *Jan 2026 – May 2026*

- Designed dashboard layouts and interface components for monitoring weather conditions and flood-related environmental data.

ORIS – Operations and Employee Management System | *DOST – Central Luzon* *Jan 2026 – May 2026*

- Designed the Figma prototype for an internal company system used by employees, supervisors, and administrators of DOST – Central Luzon office.

EDUCATION

Our Lady of Fatima University, B.S. in Information Technology, 4th year *Aug 2022 – Jul 2026*

GWA: 1.24 – Cum Laude | Consistent Dean's Lister
