PROFESSIONAL SUMMARY

UI/UX Designer with nearly three years of experience designing web and mobile products from research through implementation. Skilled in product design, design systems, user research, analytics, and cross-functional collaboration.

DESIGN TOOLKIT

Figma, Adobe Photoshop, Adobe Illustrator, Adobe Analytics, Google Analytics, Canva, HTML, CSS, JS, Microsoft 365

EXPERIENCE

Webmaster / UI Designer | Mind-1-1 Org

Jul 2026 – Present

- Redesigned the entire Mind-1-1 website by assessing the appropriate visual theme for a mental health and wellness platform, and applied UI standards for accessibility and consistency.
- Created a design system in Figma including reusable components and standard layout for design efficiency.
- Worked directly with executives through regular feedback cycles and used Google Analytics to review user behavior and site performance, identify areas for design improvement.

UI/UX Designer | Department of Science and Technology – Central Luzon

Jan 2026 – May 2026

- Designed interfaces for government information systems from scratch, including an AI-assisted flood forecasting platform and an internal agency operations platform.
- Conducted employee interviews to understand workflow pain points, validate design decisions, and improve the usability of internal systems.
- Coordinated closely with the development team throughout the design process to gather technical feedback.

UI/UX Designer | Kibbler Smart Pet Feeder Startup

May 2025 – Nov 2025

- Owned the end-to-end UI direction for the web and mobile applications and the 3D product design of the smart pet feeder hardware in Tinkercad.
- Built a scalable Figma design system with reusable components and interaction states to support design consistency.
- Conducted interviews with pet owners to understand feeding routines, pain points, and expectations, then used those insights to refine product features and user flows.

Web Designer | Freelance Role – Cabs Korean Restaurant

Mar 2025 – May 2025

- Designed the full restaurant website and ordering platform for customers, employees, and administrators, covering menu browsing, reservations, cart, checkout, payment, and real-time order tracking.
- Established the website's design direction by creating a design system in Figma which includes typography, color usage, spacing, component behavior, and responsive rules before applying them across the full redesign.

EDUCATION

Our Lady of Fatima University, B.S. in Information Technology, 4th year

Aug 2022 – Jul 2026

GWA: 1.24 – Cum Laude | Consistent Dean's Lister

CORE SKILLS

Product Design, UI/UX Design, Design Systems, User Research, Prototyping, Usability Testing, Design QA, Web Analytics

CERTIFICATES

IBM Front-End Development with Figma, Bootstrap & Git • Meta Front-End Developer • Google Data Analytics • Pearson ITS Python • Pearson ITS Networking • Cisco Certified Support Technician Cybersecurity

RECOGNITION

DICT STEP UP Central Luzon Top 10 Startup (Kibbler)

Nov 2025

5th Placer – CodeChum National Programming Challenge

Dec 2025

Best Research Poster Awardee – Academic Recognition

May 2025

Best Capstone Project Presenter Awardee – Academic Recognition

May 2025
